"We will close the river Wednesday morning and it will remain closed until the Eastland is raised even though it take a week," said Coroner Hoffman.

REFUGEES

From Courland Continue to Pour into City of Riga by the Thousands.

PETROGRAD, Aug. 10.—Refugees from Courland continue to pour into Riga by the thousands and the fields outside of the town are filled with herds of cattle and droves of horses that have been rescued from the German invaders of the province. Considerable distress exists among the refugees. As far as possible huts and tents have been provided for them but throngs nevertheless are sleeping in the woods. There is a great shortage of bread in consequence of the removal of the machinery from the mills.

COPENHAGEN, Aug. 9.—Persons in close touch with court circles here declare that they know nothing of the peace offer alleged to have been made by the German emperor to the emperor of Russia through the king of Denmark. AFTERNOON GOWN

The model of this afternoon gown is of black tulle. The skirt is medium width and gathered at the waist. On each side there is a plain gore, the front and back being gathered more fully than the side. There are two deep folds at the bottom of the back and front gores. These are headed with a full about two inches deep. The sleeves and waist are in one. The latter is open with a V at the neck. The high standing collar gives it a chic touch. A black velvet toque completes the costume.

Operation Not Needed

Mrs. W. A. Barnes, who lives in Ballard, Calif., has sent to the Times Laboratories a very strong endorsement of Frutella and Traxo. In her letter she says:

"Doctors say gall-stones cannot be cured without an operation, costing much money as well as unnecessary suffering. I am cured, I know, and this is proof positive, and my friends know that such is the case."

Frutella is a powerful lubricant for the intestinal organs, softening the hardened particles that cause so much suffering and expelling the congested waste in an easy, natural manner. A single dose is usually sufficient to clearly indicate its efficacy. Traxo is a splendid tonic alternative that acts on the liver and kidneys, stimulates the flow of gastric juices to aid digestion, and removes bile from the general circulation. Traxo should be taken three or four times a day following a dose of Frutella to strengthen and restore the weakened, run-down system.

For the convenience of the public, arrangements have been made to supply Frutella and Traxo through leading drug stores. In Clarksburg they can be obtained at
